OBJECTIVE

I aim to contribute my programming expertise, problem-solving skills, and commitment to continuous learning to meet user and business needs. I am naturally inquisitive, detail oriented, and creative.

WORK EXPERIENCE

T-Mobile *(Contractor)*   **Feb. 2024 – Feb. 2025**
Network Administrator   *Remote, TX*
- Documented network changes to ensure accurate records and facilitate future network tasks.
- Monitored network performance to identify and resolve potential issues proactively.
- Ensure necessary information is provided to expedite restoral efforts.

EDUCATION

Technological University of Panama   **October 2023**
BS, Computer Systems Engineering   *David, Panama*
- Tasked with a diverse set of projects using programming languages and tools including C++, C#, Java, Python, Linux, CISCO CLI, SQL, Arduino, Raspberry Pi, Blender, Unity, Krita, AutoCAD.
  - Developed 2 facial recognition projects with Arduino, Python and Linux.
  - Set up Endian firewall on Linux virtual machine as well as configuring firewall rules, intrusion prevention, web filtering, antispam, and antispyware, and TCP/UDP port rules.
  - Created a 3D game with game logic programmed in C# and leveraged Unity's engine to create a simple and intuitive experience.
  -

Cisco Systems   **April 2023**
Certification, Cisco Certified Network Associate (CCNA)   *David, Panama*
- Evaluates knowledge of theoretical and practical skills, such as installation, configuration, operation, and troubleshooting medium-sized networks.
- Covered concepts such as, routing and switching protocols, cisco router and switch configuration, subnetting, network security.

AWS   **In progress**
Certification, AWS Certified Cloud Practitioner CLF-C02 2025
- Understanding of cloud concepts
- Uphold security and compliance with the AWS Shared Responsibility Model, IAM roles, and security best practices like MFA and encryption.
- Optimize resources to balance performance with cost-effectiveness.

Cisco Networking Academy   **2020**
Certification, NGD Linux Unhatched
- Completed hands-on exercises with concepts such as, files and filesystem management, administrative access and text editors.
- Obtained Linux knowledge covered by the CompTIA A+.

SKILLS

Linux; Cisco CLI; Python; SQL; Git; Arduino; AWS; HTML / CSS; JavaScript; TypeScript; React; Vue.js; Next.js; Node; NPM; Bootstrap; LESS; SASS; Java; C#; Vb.net; Android Studio; Oracle VirtualBox; UiPath; Unity; Krita; Blender; AutoCAD; Gimp; Microsoft Suite; CI/CD Principles; Extreme Programming

PROJECTS

Custom PC Build Project
- Investigated and monitored PC part prices with a month anticipation, as well as, during Black Friday and Cyber Monday. Ensured compatibility of components before purchase.
- Assembled components and case.
- Performed Bios flashback for ASRock motherboard.
- Installed windows 11 using the windows media creation tool.

Portfolio Webpage
- Created original code base from scratch with HTML, CSS, Bootstrap & JavaScript.
- Refactored TypeScript and React components created in Next.js framework.
- Deployed with GitHub Actions.
- Hosted on GitHub Pages.

Spotify Organizer
- Created custom Spotify API functions to assist in playlist organization, track search, queue creation, queue saving to JSON.
- Developed TypeScript Vue components for displaying, organizing and playing tracks.
- Implemented API authentication & Vue Pinia state management for "store variables" (client ID & access token).

Full Stack Database Manager
- Configured MySQL database connections and queries.
- Developed TypeScript Vue interface for viewing database tables.
- Utilized ExpressJS for server routing.
- Implemented Model-View Controllers model for handling database operations.

Automated Youtube Video Summarizer
- Implemented a WhisperAI Python script for text transcription and file modification.
- Developed UiPath logic for sending text in chunks to work around the character limit of ChatGPT prompts.
- Designed a UiPath / .Net workflow to bulk download videos & summarize text transcription using ChatGPT.

React Bootstrap Ecommerce Web Clone
- Constructed a responsive layout.
- Modified react-bootstrap components to visually imitate eCommerce website (coolshirtz.com).

HOBBIES

Bouldering; Chess; Cooking; Drawing; Guitar; Table tennis; Volleyball; Weightlifting; Writing
